

Graduate Certificates - Health Science Center

A Graduate Certificate program is a formal collection of courses that together form a coherent program of study offered through an academic unit. A Graduate Certificate is recognition of the acquisition of knowledge and skills in a given field of study. A Graduate Certificate is an academic credential granted by the University of Florida. As such, all Graduate Certificates must follow the requirements of admission, successful completion of approved graduate level coursework, application to receive the credential, and enrollment during the term in which the certificate is awarded and posted to the transcript.

Additional information can be obtained from the academic unit offering the certificate.

Medicine

Addiction and Recovery
Aging and Geriatric Practice
Anatomical Sciences Education
Biomedical Informatics
Biomedical Neuroscience
Cancer: Biology, Epidemiology, and Outcomes
Clinical and Translational Science
Implementation Science
Medical Anatomy and Physiology
Medical Human Anatomy
Medical Physiology
Medical Physiology - Cardiovascular/Renal Physiology
Translational Health Science

Pharmacy
